

Long-Winded: The Penn State Wind Energy Club's Mission

Eric Folmar is a junior majoring in mechanical engineering with a minor in Spanish. He is a member of the Wind Energy Club's generator team. He studied abroad at La Universidad Complutense de Madrid, Spain in spring 2020 and at the National University of Singapore in May 2019.

Joshua Forrest is a senior majoring in aerospace engineering with a minor in information science and technology. He is president and the aerodynamics lead in the Wind Energy Club. He studied abroad at Monash University in Melbourne, Australia in spring 2019. He has also been a Global Engineering Fellow since fall 2019.

Avery Taylor is a senior majoring in energy engineering with minors in environmental engineering and architectural history. She is the team lead for the Connection Creation Contest and Rules and Requirements for the Collegiate Wind Competition. She also coordinates the Wind Energy Club's outreach through social media and website.
