

Promoting hybrid approaches for international engineering experiences

Dott. Francesco Ducatelli earned his master's degree in modern languages and literatures at the Università degli studi di Roma Tre. He works at the International House of the Technische Universität Braunschweig as Head of Mobility Office and International Student Advice and Admission, Erasmus+ Institutional Coordinator, Head of IT and Digitalisation Projects, and Digitalisation Officer. Before working at the TU Braunschweig, he was a Erasmus+ Institutional Coordinator at the International Office of Leibniz Universität Hannover for the European exchange programmes.

Carole Lefrançois completed her Ph.D. thesis on language science/didactics of languages and cultures at the University of Sorbonne Nouvelle – Paris 3. She teaches French to international students at UTC (Université de Technologie de Compiègne) after having worked in England and Japan at schools, universities, and professional contexts for five years. She just published *Abécédaire de l'innovation en langue française* from Presses des Mines, Paris.

Cornelia Marin holds a dual law degree of Paris I (Panthéon-Sorbonne) in France and University of Cologne, Germany. She obtained her German State License in Law with a specialization in economic law. After a position as legal counsel at the Chamber of Commerce of Ulm (Germany), she worked as an independent consultant in strategy for German small- and medium-sized companies approaching the French market. Having worked first at the Technology Transfer, then International Office of University of Technology of Compiègne (UTC), France, she was appointed from 2012 to 2017, as Director "International" of the Sorbonne Universités. Since September 2017, she joined UTC as Director for International Relations. She speaks several foreign languages (German, French, English, Russian, Spanish, and Chinese).
